

# Android Week One

Yehyun (Joseph) Ryu  
UMN App Developers

# About Me

- Seoul, South Korea
- Sophomore
- Computer Science
- Android Developer
  - <https://github.com/ryubears>
  - <https://www.linkedin.com/in/yehyun-ryu-821541136/>

# About the Session

- Learn about ...
  - Android concepts
  - How to use Android Studio
  - How to build Android apps
- Interactive Session
  - Coding together
  - Follow my code
  - Ask questions

ANDROID

# Semester Project

- MyWeather: Weather App
- Udacity Sunshine App
- Open Weather Map API
  - <https://openweathermap.org/current>
- Networking
- RecyclerView
- SQLite Database

# Before We Start ...

- Java
- Android Studio
  - <https://developer.android.com/studio/index.html>
- Download the Android Learning Session repository on GitHub
  - <https://github.com/ryubears/AndroidLearningSession>

# Android File Structure

# XML

- e**X**tensive **M**arkup **L**anguage
- Similar to HTML
- All design components
- res - resource
  - drawable
  - layout
  - mipmap
  - values
    - colors
    - strings
    - styles

# XML Syntax (general)

Start Tag and Close Tag

```
<TagName  
  attributes>
```

Children Tags

```
</TagName>
```

Self Closing

```
<TagName  
  attributes />
```

# XML Syntax (layout)

Start Tag and Close Tag

<ViewType  
attributes>

Children Views

</ViewType>

Self Closing

<ViewType  
attributes />

# XML Syntax (values)

**<resources>**

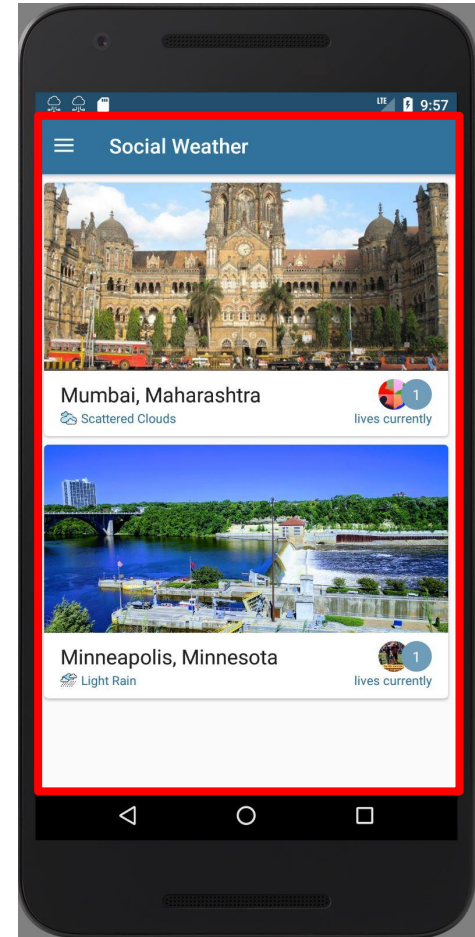

**<valueType name="valueName"> value </valueType>**

**</resources>**

To Access: @valueType/resourceName  
ex) @drawable/androidImage

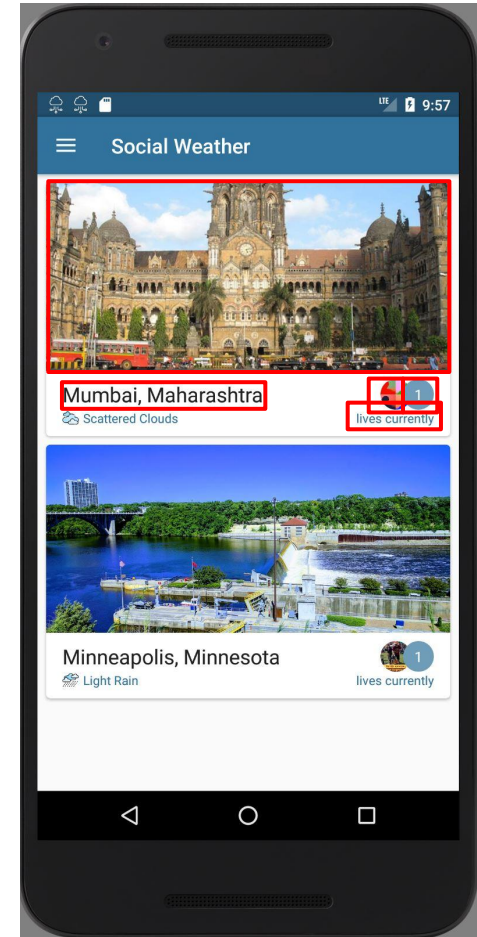

# Activity

- An activity is a single, focused thing that the user can do.
- Screen where users mainly interact with the app with.
- SomeActivity.java
- activity\_some.xml

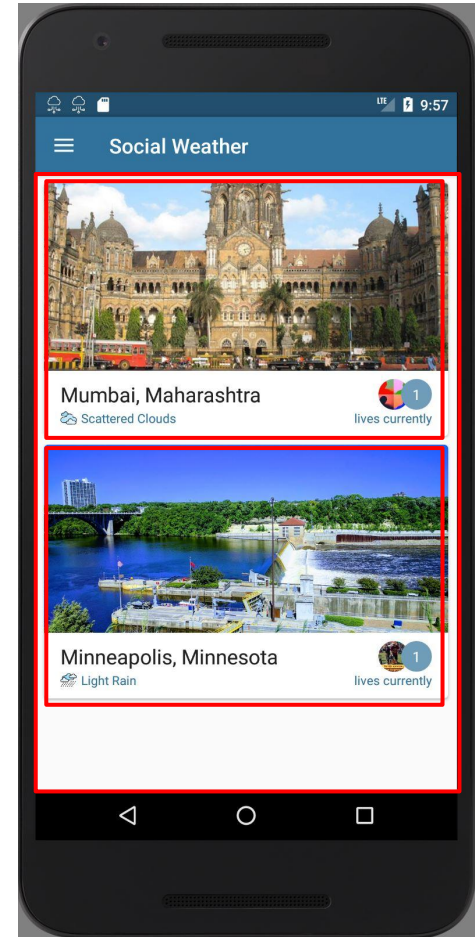

# View

- Basic building block of a layout
- Smaller rectangle that holds some content
  - Texts
  - Images
  - Other Views

# ViewGroup

- Special view that can hold other views.

View

ViewGroup

- A ViewGroup is a View
- A View is not necessarily a ViewGroup

# Parent View vs. Child View

- View A is a ViewGroup
- View A is parent view of View B
- View B is child view of View A

# Common ViewTypes

## TextView

Displays text

```
<TextView
    android:id="@+id/title_text_view"
    android:layout_width="wrap_content"
    android:layout_height="wrap_content"
    android:text="@string/my_photos"
    android:textAppearance="?android:textAppearanceLarge"
    android:textColor="#4689C8"
    android:textStyle="bold" />
```

My Photos

## ImageView

Displays Image

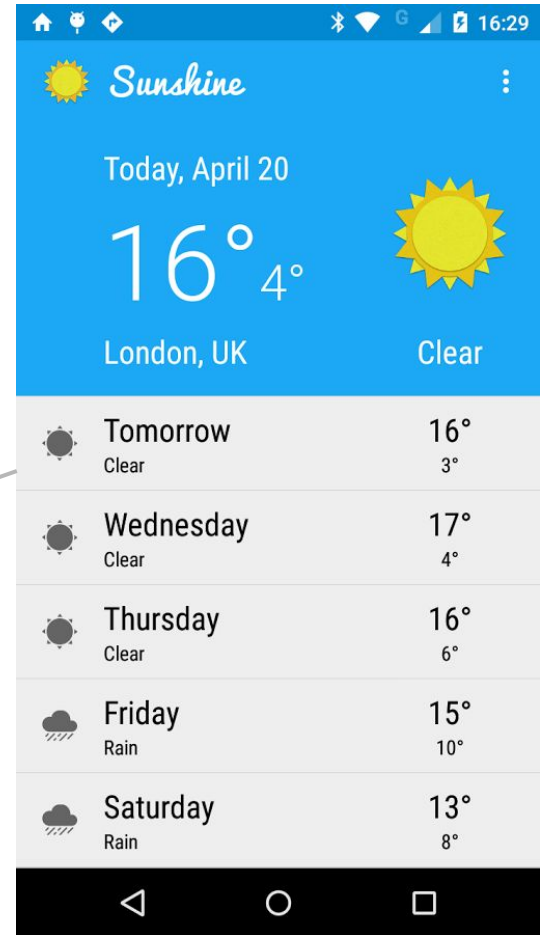

```
<ImageView
    android:id="@+id/photo_image_view"
    android:layout_width="match_parent"
    android:layout_height="match_parent"
    android:scaleType="centerCrop"
    android:src="@drawable/beach" />
```

# Today's Code

- Create layout file for a single item in a weather list

# DP and SP

2 pixels by 2 pixels

Medium Resolution Device

High Resolution Device

Extra-High Resolution Device

# DP and SP

2 dp by 2 dp

Medium Resolution Device

★ Make touch targets 48 dp at least ★

High Resolution Device

Extra-High Resolution Device

# wrap\_content and match\_parent

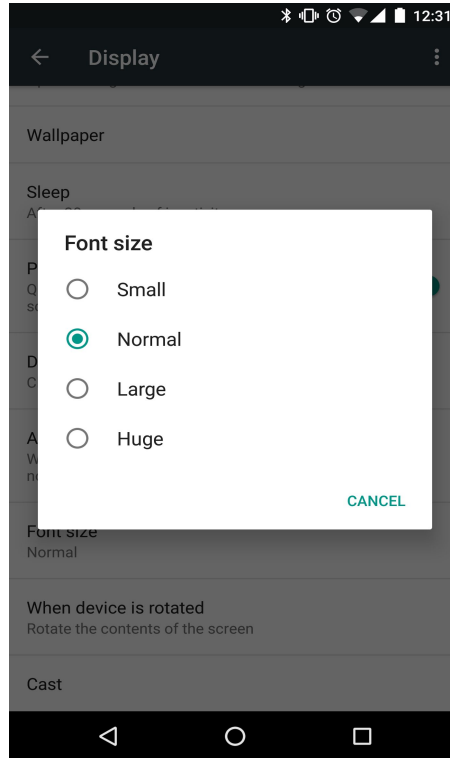

text

A small, light brown rectangular box containing the word "text".

# DP and SP
